Mango arrives for the first time in California and continues its expansion in the United States

MANGO

- After disembarking in Texas and Georgia last month, the company inaugurates a 400m² point of sale at Los Angeles, in Los Cerritos Center, and at Glendale Galleria Mall, with a selling space of 460 m².
- These stores represent Mango's arrival in the state of California and are part of the expansion plan in the United States, which aims to have 40 stores by 2024 and for the country to become one of the group's top five markets in terms of turnover.
- In the coming months, the company will increase its presence in California by opening in Fashion Valley (San Diego) shopping mall and three more stores in the city of Los Angeles: Brea Mall, Victoria Gardens, and Beverly Center, located in Beverly Hills.

BARCELONA,

SEPTEMBER 6, 2023

Mango, one of Europe's leading fashion brands, is strengthening its presence in the United States with its arrival in the state of California. After launching in Texas and Georgia at the beginning of August, the company is moving forward with its expansion plan in the country by opening for the first time in Los Angeles County.

Mango inaugurates a 400m² point of sale at Los Cerritos Center, located between Los Angeles and Orange County. The company has also opened a 460m² store in Glendale Galleria Mall, a three-story shopping centre in Los Angeles County. Both stores stock the Woman line exclusively and feature the Mediterranean-inspired store concept, New Med, which showcases the brand's spirit and freshness. Sustainability and architectural integration are key in this new design, which conceives the Mango store as a Mediterranean home with different rooms with a predominance of warm tones and neutral colors, combined with traditional, handcrafted, sustainable, and natural materials, such as ceramic, tuff, wood, marble, esparto grass and leather.

"After the excellent reception of Mango in New York and Miami and the recent arrival in Texas and Georgia, we are very excited to bring the brand experience physically for the first time in California as part of our ambitious development plan for the coming months in the United States, one of our key markets in the coming years" says Mango's Director of Expansion and Franchises, Daniel López.

The new stores are part of Mango's expansion plan in the United States, one of the company's key markets in the coming years. The company plans to open around 15 new points of sale in 2023, particularly in the American west and south.

In the coming months, Mango will continue to increase its presence in California by opening four additional stores: one in Fashion Valley (San Diego) shopping mall and three in the city of Los Angeles: Brea Mall, Victoria Gardens, and Beverly Center, located in Beverly Hills the exclusive neighborhood of Hollywood stars.

Recently the company launched in Texas with a store with a selling space of over 350m² and stock of the Woman line located at Houston's Memorial City Mall. The expansion in Texas includes the opening of stores in other shopping malls in the state, including The Shops at La Cantera (San Antonio), North Star Mall (San Antonio), Galleria Dallas (Dallas), La Plaza Mall (McAllen), Stonebriar Centre (Frisco) and Baybrook Mall (Houston).

Mango also arrived for the first time this August in Georgia. The company opened a store with selling space of over 600 m² and stock from the Woman and Man lines at Perimeter Mall, Georgia's second largest shopping center and North Atlanta's premier shopping destination and home to over 150 retailers.

USA expansion plan

Mango began its expansion plan in the United States last year with the aim of opening approximately 30 new stores in three years to reach a total of 40 stores by 2024, combining its presence in major shopping malls with standalone stores. The company wants the country to become one of the group's top five markets in terms of turnover through increasing its number of physical stores, as well as driving its online sales on mango.com and in marketplaces.

The starting point for the expansion plan was the opening of the Mango flagship store located at 711 Fifth Avenue in New York, one of the world's most exclusive shopping streets. The store, with a selling space of 2,100 m² featuring its products from the Woman, Man and Kids lines, is located in the Grande Dame building on this emblematic New York Avenue, in a historic late-1920s building that previously housed major companies such as NBC, Columbia Pictures and Coca-Cola.

During the first phase of its expansion plan in the United States, Mango extended its presence in New York City (both in Manhattan and in surrounding areas). After the store opening on Fifth Avenue, late last year the company focused on increasing its presence in the state of Florida, with the opening of two stores in Miami and one in Orlando.

Specifically, Mango opened new stores on Lincoln Road (Miami), one of the country's busiest shopping streets, in Aventura Mall, the main shopping mall in Miami, and one of the ten largest in the United States, and in Florida Mall, located close to Orlando International Airport and the Walt Disney World Resort theme park. These four store openings in 2022 increased the company's selling space in the United States by 2,500 m².

In 2023 the company will open around 15 new stores, particularly in the American west and south, launching for the first time in the states of Georgia, Texas and California.

Mango in the United States

Mango has been present in the United States since 2006. The company strengthened its commitment to the American market in late 2017 with the refurbishment of the SoHo store and with the agreement with Macy's in 2019 to accelerate the firm's online growth in the country.

In 2021, Mango opened four stores in New Jersey, New York, and Miami, and in April 2022 launched its line of essential homeware products (Mango Home) via its website. In May, the company initiated its expansion plan in the United States with the opening of its flagship store on New York's Fifth Avenue and three store openings in Florida.

Mango closed 2022 with 10 stores in the United States, where it also operates via its website Mango.com and the websites of Nordstrom and Macy's.
