Mango reopens its store in Westfield Glòries shopping centre
with its New Med concept

MANGO

- The company is reopening its store in Westfield Glòries shopping centre in Barcelona, which has a selling space of over 650 m², after it refurbished it to incorporate the New Med image, present in the company's principle stores around the world.
- The store has modified its fitting room area to include adjustable lighting and added new technologies and services to improve the customer shopping experience, as well as a garment recycling point and a specific click and collect zone for the collection and return of orders.
- The refurbishment is part of the plan to renew the Mango store network, which aims to extend this retail concept beyond its flagship stores.
- The Mango New Med concept aims to reflect the spirit and freshness of the brand and is strongly influenced by Mediterranean culture and lifestyle. Sustainability and architectural integration are key elements of this new design.

BARCELONA,

23rd NOVEMBER 2023

Mango, one of Europe's leading fashion groups, continues to move forward in its plan to refurbish its stores in Spain. Today, the company is reopening its store in Westfield Glòries shopping centre in Barcelona, which has a selling space of over 650 m² and stocks the Woman and Kids lines.

The store has been relocated and refurbished to incorporate the Mediterranean-inspired New Med concept already present in some of the group's flagship stores around the world. Its design aims to reflect the spirit and freshness of the brand and is strongly influenced by Mediterranean culture and lifestyle. Sustainability and architectural integration are key to this new concept, which is why new stores feature elements such as eco-efficient lighting and temperature control, and a design which incorporates sustainable materials such as natural paint.

With the store refurbishment, Mango has created a new fitting room area, increasing its size to make them more functional, while equipping them with adjustable lights. New technologies and services have also been added to improve the customer shopping experience, such as a specific click and collect zone for the collection and return of orders; Recycling Boxes, where customers can deposit used clothing and footwear to give their garments a second life; and RFID technology for better stock control.

The refurbishment is part of the plan to renew Mango stores, which aims to extend the New Med retail concept beyond its flagship stores. Throughout 2023, the company will refurbish fifteen stores in Spain. Key refurbishments include its flagship store at 70 Fuencarral street in Madrid, which reopened in September, and the store located on Avenida Maissonave, in Alicante, which reopened in March. Both stores have a selling space of approximately 1,000 m² and stock products from the Woman, Man and Kids lines.

In Barcelona, last September the company reopened its 1,300 m² store at number 90 Rambla Catalunya, located in the old Cine Alexandra building. It has also refurbished its Mango Kids store in Paseo de Gracia (Barcelona), the biggest Kids store in the world in terms of turnover, with its new store image, Kids Lab. The 390 m² stand-alone store is the first Mango store to have a dedicated children's play area.

Mango opened its first store in Barcelona in 1984 at number 65 Paseo de Gracia. The company now has 27 stores in the city of Barcelona with a combined selling space of over 16,000 m², stocking all the brand's lines: Woman, Man, Kids, Teen and Home.

MANGO

In Spain, Mango closed 2022 with 375 stores, while in global terms, in 2022 the company accelerated the development of its network of company stores, closing the year with 2,566 stores in over 115 markets in all five continents.
